Subject: Navy/ Northrop Grumman Bethpage: Question on EPA's draft fact-sheet

Good morning Henry and Steve - Regarding the paragraph, below, Pete asked me if the last sentence should also include the Navy facility. My recollection is that we had used the term *Grumman* to refer to the entire Navy/Grumman conglomerate. Do you see an issue with including the word 'Navy' in the last sentence, below:

"Volatile organic compounds, mainly trichloroethylene, tetrachlorethylene, dichloroethylene and vinyl chloride, and inorganic chromium contamination at the Northrop Grumman facility entered the groundwater through various source areas. These include recharge basins, sumps, dry wells, spill areas and former hazardous waste storage areas at both the Grumman and Navy Bethpage facility ies and the adjacent Hicksville Hooker/RUCO EPA Superfund site."

Thanks,

-Carol-
